

The Thompson Family of Oxford ,Nova Scotia Settlers from Yorkshire,England

The following History of the Thompson's was written by Gretchen Clara Thompson starting around 1950,it is around 80 hand written pages,and I am reproducing it as it was written. Gretchen Clara is my Aunt,and the daughter of James Hiram Thompson of Oxford NS. At this time [Feb 2000] she is 96 years young and living in Vancouver BC.

Richard Thompson ,the founder of the Town of Oxford,Cumberland County,NS,is the first Thompson we have a record of.He was born in Yorkshire,England in 1744,A tennent on the Estate of a Lord Bruce.

England was in a state of depression in the 1760's following years of war,estate taxes were high and rents of tennent farmers had greatly increased causing hardship and discontentment.At this time thousands of acres of land in Nova Scotia were being granted to men of influence and speculators with the hope that they could persuade farmers to emigrate to Nova Scotia.

In 1764 a grant of 20,000 acres was given to Michael Franklin in the River Hebert -Chignecto Isthmus of Cumberland County,which became known as Franklin Manor.The area had been in the possession of French Settlers,in 1755 it was lost by France to England and the outcome was the expulsion of the Acadians.

Michael Franklin was born in Devonshire England in 1720.He was a relative and protege of Governor Legge of Nova Scotia and came to Halifax in possession of 500 pounds.Shortly after his arrival he opened a "dram shop""on the Halifax waterfront,later imported fine wines and soon became a prospereous bussness man.In 1762 he married a grandaughter of a prominent Boston family.In 1766 he was appointed Lt Governor of Nova Scotia.

The first farmers he persuaded to settle on his manor came from the New England States. Some of them were indifferent farmers,and soon became discontented ,and returned to there former homes.Franklin returned to England in 1769 to settle personal business affairs and stayed there till 1771,while there he got the ear of the Duke of Rutland,told him of his 20,000 acre Manor in Nova Scotia and his need of farmer settlers.He wanted only industrious men willing to work and eager to come to a world of new opportunity.The unhappy Yorkshire tennent farmers were impressed with the information of the fertile land available,at the low rate of one penny rent per acre for the first year and two pennies the following year.No financial assistance was offered or to be received.Close to one thousand Yorkshire tennents decided to emigrate to Nova Scotia and settle on Franklin Manor.The plan was so successful it was abandoned within a few years as England felt too many tennent farmers were being lost.

March 16 1772 The first settlers sailed from Liverpool on the "Duke of York" and reached Halifax 46 days later.They went by coastal schooner to Fort Cumberland and arrived there May 21 1772,two months after leaving Liverpool.

1773 A second shipload of Yorkshire settlers arrived in Halifax

1774 Nine ships sailed from Hull bringing the rest of the settlers to Halifax,the last ship reached port the end of June 1774.**Richard Thompson** arrived on one of these ships in 1774,thought to be either "The Two Friends" or the "Albion"

Many of the new settlers left Halifax for Fort Cumberland by costal schooner,but a number of

men decided to walk.They were accompanied by guides but with just trails through the forest,few settlements along the way it could not have been an easy journey.

In Fort Cumberland they were given temporary lodging until suitable farm land was located. Fort Cumberland was originally Fort Beausejoir and had been built by the French,when it came under control of the English in 1755 the name was changed to Fort Cumberland. In 1926 the surrounding area became one of Canada's National Parks and the name Fort Beausejoir was restored..

Through the efforts of Michael Franklin,the Yorkshire settlers came to Nova Scotia.He was Lt Governor 1766-1776.

He was said to be a well liked man,interested in the welfare of the settlers. He later assisted in the return of some of the Acadian refugees.Refuges wanting to return were offered a land grant of 80 acres if they would swear allegiance to England ,and a number of them returned to Nova Scotia to live.Franklin was also interested in the welfare of the indians,who apparently held him high regard.He died November 8 1782 ,at the age of 62 years and is buried in Granville Nova Scotia.

Richard and Dorthy [Patton] Thompson

Richard Thompson 1744-Oct 10 1821

Married December 4 1774

Dorthy Patton [no statistics]

Richard Thompson was born in Yorkshire England in 1744 .He arrived in Halifax NS in 1774 on a ship bringing settlers destined for Franklin Manor in the Chignecto Isthmus of Cumberland County,Nova Scotia..He settled on land in the Pointe de Bute area ,close to the present boundry of the Province of New Brunswick. On December 4 1774,he married Dorthy Patton,daughter of Mark and Sarah Patton,settlers from the New England States. They were of Irish decent. The story is that she was attending school in Boston,and had to return home to care for her mother who was ill.

She and Richard met at some time in 1774,and were married in December of that year.The only other member of the Patton Family we have a record of is Mary Patton,a sister of Dorthy.Her story is interesting and is included here.

Mary Patton married **John Allan** of Inverma Farm,Pointe de Bute,NB. The book "Forts of Chignecto" by Clarence Webster published in 1863 states that " the best preseved portion of a old French road,ten feet wide,is on Inverma Farm and runs from near the house to Bloody Ridge,a distance of 300 yards.

John Allan,later known as Rebel John Allan was born in Edinburgh Scotland,January 14 1747,the son of a Officer in the army of King George II of England.He came to Halifax with his parents in 1749,and was educated in Mass,USA.

In 1767 he was living in Cumberland County Nova Scotia and in 1770 was elected to the County Assembly and appointed Sheriff,holding this position until 1776. After their marrage Mary and John Allan lived on Inverma Farm.

At the time of the American War of Independance John Allan's sympathy was with the New England States. In 1776 a meeting was held in his home,attended by many settlers also anxious for Nova Scotia to become an American State. January 4 1777,Allan went to Washington's headquarters and spoke to the Continental Congress. He was appointed a Infantry Colonel,and Superintendent of Indians. In1777-1778 he and a Colonel Jonathan Eddy led severial uprising's in Nova Scotia which were defeated. Allan was declared a traitor and fled to Maine to escape arrest.

English troops invaded Inverma Farm and fighting took place. Fires were set by the soldiers and many of the farm buildings destroyed. Mary and her children hid in the woods for several days, her father Mark Patton, came to her rescue and took them into his home. Mary was arrested and taken to Halifax and detained for 7 to 8 months, she was finally released and allowed to join her husband in Maine. Allan retained his rank as Colonel and also his position as Supt of Indians [it was important that the Indians were loyal to the American cause] with his headquarters in Machais, Maine. He was given a grant of land in the Ohio Valley but continued to live in Maine. He was said to be a Merchant on Allan's Island for a time and also lived Lubec, Maine. In 1783 he resigned his Commission and moved to Lubec Mills where he died February 7 1805, at the age of 58 years. [Much of the information on John Allan came from an Encyclopedia and books in the Vancouver Library. We have no further information on the Patton Family or Mary Allan after she was allowed to join her husband in Maine. They lived in a time of much trouble and divided family loyalties. It is hoped that in a time of peace they were able to see relatives in Nova Scotia again. Maine is next to New Brunswick, so perhaps they kept in touch..

Richard and Dorthy Thompson lived in Pointe de Bute until 1791. They left there when their son Ralph was 17 years old, Richard 15 and Mark 13. They came down the coast of Nova Scotia by ship and went up the River Philip to where it meets the Black River. At this site on February 1st 1792 he bought 1500 acres from William Allan for 70 Pounds Sterling. This was part of the Allan Family land grant of 1785. It is now the location of the Town of Oxford NS. There he built a log dwelling for his family. He later received a Government Grant of 60 pounds to assist in the building of a saw mill. This was the first sawmill in the area and was powered by a water wheel.

Newcomers settled along River Philip, the place was first known as River Philip, then Head of the Tide, and also Slab Town, because of the piles of slabs from the mill. In 1867, the year of Confederation, it was officially named Oxford. Richard built the first frame house in Oxford, it was two stories high, and had 5 old fashioned fire places. [In the 1980's the site is occupied by the local curling rink]. The sawmill operation was a success and Richard prospered. In 1820 he gave a lot of land for the town's first grave yard, and in 1854 his son Richard gave the adjoining lot for a Methodist Church, which was built in 1855. In 1916 a monument was erected in the old grave yard inscribed-

**In Memory of Richard Thompson
The First Settler and Pionier of Oxford
who Died in 1821, aged 77 years
Erected 1916**

When visiting Oxford in 1945 I saw Richard's grave stone inscribed "**I shall go to him but he shall not return to me**

Samuel 2, 13-23", and wondered if it had been placed by his wife Dorthy. I could not find a stone for Dorthy and have no knowledge of the date of her death. When I visited in 1975, I found Richards stone broken and discarded. This first cemetery was used 1820-1875, now it is a small park like area with all the stones removed, only the Monument to Richard Thompson remains, on the adjoining lot a United Church now stands..

The 1791 Capitation Report for River Philip shows that Richard Thompson paid a tax of 2 shillings, 6 pence, in 1795 he paid 8 shillings, his signature is on the report. The old Capitation Tax records list only the name of the head of the household and the number of males and females of the dwelling. The English monetary system was in effect for a number of years until the 1800's. In those years one pound was worth many, many times its present day value, 1980.

The family was poor and life must have difficult,and full of worry and heartache in there 39
years of married life.

My father James Hiram Thompson and his brother Bedford, grandson of Abraham and Evelina, were visiting in Oxford when Evelina died, January 1 1909, and were present at her funeral. I visited Oxford in 1975 and drove out to Conns Mill with my sister Evelyn Little and Elizabeth Beaudet to meet our second cousin, Ralph Thompson, grandson of George Hebert Thompson 1864-1948. He was living on the old family farm, he took us to a small old graveyard in the woods nearby where Abraham and Evelina are buried, close to where they had lived all their married lives. Our branch of the family is descended from their eldest son John Rufus Thompson 1847-1929.

At the time of our visit to Conns Mill we also met Ralph's father, Richard Abraham Thompson, son of George Hibert Thompson and Annie Chestnut. Richard was born in Conns Mill in 1892 and died in 1988. He is buried in the old Thompson graveyard near his Grandparents Abraham and Evelina.

John Rufus and Nancy [Johnson] Thompson

John Rufus Thompson Jan 17 1847--Jan 18 1929

Married August 4 1870

Nancy Johnson Aug 6 1853-1932

John Rufus Thompson, 5th child of Abraham D and Evelina [Read] Thompson was born in Conns Mill NS on January 17 1847. He married Nancy Johnson daughter of Mathew and Dorcas [McNutt] Johnson of Mansfield NS, two days before her 17th birthday. For 26 years they lived on a farm in Little River NS, where 11 of their children were born. Their 12th child, Jessie Leon, was born in Meadovale MAN, March 4 1897

John was not a prosperous Farmer. Around 1884 he owned a sawmill that he ran with the assistance of his sons James H and Bedford. Apparently it was a successful operation, but John spent the money as fast as it was made, and the mill closed when James H and Bedford left for Manitoba in 1890.

In 1892 John also went to Manitoba and worked on farms in the Dugald-Meadowvale-Plympton area for four years. In 1896 his wife Nancy and the rest of the family moved west. They lived on a rented farm in Meadowvale, where their daughter Jessie was born. In the early 1900 sons James H and Bedford bought a farm for their father in Plympton, where he and Nancy lived until 1923. [Meadowvale and Plympton were not villages, they were school districts and Post Offices located in one of the farm houses].

For several years John and Bedford owned and operated a sawmill on Hecla Island in Lake Winnipeg in the early 1900. In 1910 lumber from the mill was used to build a large home on the Plympton Farm. The mill was closed in 1910 and John returned to farming and had some years of prosperity. It was always a pleasure for their grandchildren to visit the farm during the summer holidays..

Soon after John seems to lack financial common sense, too often he was in debt and never worried whether the bills were ever paid.. He finally mortgages the farm and invested the money in some get rich scheme with a Robert Brownell, who was also from Nova Scotia, the scheme of course was a failure. By 1922 the mortgage was foreclosed and the farm lost. In 1923 John and Nancy moved to Whitemouth MAN, and lived in a small house that son James H has built for them on his property

John died in 1929, after being bedridden for several years following a stroke, he was unable to walk, but his speech was not affected. He is buried in the Thompson Family Plot, in the Whitemouth graveyard. Nancy moved to Winnipeg in 1930 and lived with her daughter Anna Dunlop, she died in 1932 and is buried in Millbrook Cemetery beside her daughter Jessie and sister Lucinda..

Lucinda was a sister of Nancy, married to Joseph Thompson, a cousin of John. They also came from Nova Scotia, in the 1890's and settled in Meadowvale.. Lucinda died in the late 1890's in a typhoid fever epidemic. John Thompson lived till the early 1930's. In his last years he lived in a small house that my father James H Thompson built for him on his property. Joseph died of a sudden heart attack and is buried in the Thompson Family Plot in Whitemouth MAN.

Nancy Thompson was a kind mother and grandmother. Her married life could not have been easy, and neither was Lucinda's. John and Joseph were not easy to live with.

They were married in the home of her brother James in Selkirk Man. in the summer of 1908. They lived all their life on a farm in the Dugald area, close to her parents home.

Mary was a plump, motherly woman. Their farm was a popular place for young relatives to visit. She was the last surviving child of John and Nancy Thompson. She died in a nursing home in Middle Church Man. just after her 90th birthday. Her husband Charles preceded her, their children live in Manitoba and Ontario..

James Hiram Thompson and Ameila Allman

James Hiram Thompson--B- July 31 1872 D- September 9 1946

Married-- May 24 1902

Amelia Allman January 20 1883--June 17 1970

James Hiram Thompson was the second son of John Rufus and Nancy Johnson Thompson and was born in Little River Cumberland County NS. There he attended a one room school and helped his father on the farm and later in the operation of the saw mill, where he became an experienced sawyer, at an early age. The mill was closed around 1890 and in 1891 James and his brother Bedford left for Manitoba. The first winter there he worked in the bush cutting cord wood that sold for \$1.00 a cord. Then he worked as a sawyer in the Lac du Bonnet MAN in a lumber mill of Walter Wardrop, who became his life long friend.

In early 1902 he went to Trout Lake BC. where his sister Anna Dunlop's family was living, shortly after his sister Evelyn and his fiance Amelia Allman followed. Evelyn and Clara worked in a hotel and James and Amelia were married on May 24 1902 by a Reverend S J Green. They had planned an earlier wedding but shortly after Amelia arrived James developed Small Pox. He was Quarantined in a log cabin up in the mountains and cared for by Sandy Dunlop, sister Anna's father in Law. After his recovery the cabin was burned to prevent the spread of the disease. The other members of the family had been quarentined in their home for several weeks. In the fall of 1902 James and Amelia returned to Manitoba.

In early 1903 they left for Sparwood BC where James was employed as a sawyer in a mill owned by his friend Walter Wardrop. They arrived in Sparwood a few days after the dreadful Franklin Slide of April 29 1903 where the town had been buried and many lives lost. The railway tracks were still under rock and rubble and the passengers had to detrain and walk over the rocks to the other side of the slide to where a passenger train was waiting to take them on to their western destinations..

In their oldest daughter, Gretchen Clara, was born September 28 1903, Margaret Wardrop was the attending midwife, an American lady married to a relative of Walter Wardrop.

In 1905 they were again living in Manitoba where James was in the lumbering Bussiness. He owned a sawmill on the western shore of Lake Winnipeg opposite Hecla Island. The bussness prospered for several years. He owned a steam boat " THE ASPREY" and several barges used to transport lumber to Selkirk MAN.. The winter of 1910-11 was a winter of storms and deep snow making woods operations difficult. He was unable to fulfill his contract with the Beaver Lumber Co of Winnipeg causing the closure of the saw mill..

In 1908 his wife and family were living in Selkirk Man.

Their second daughter Evelyn Beatrice was born March 1 1906 in Plympton Man., at the home of

her Grandparents. Kathleen, was born in Selkirk in 1908, James Cory in 1911, and Clifford Vaughn in 1913, and youngest daughter Dorcas Elizabeth in Whitemouth Man, in 1916. In 1911 James was appointed Crown Lumber Inspector for the eastern part of Manitoba by the Federal Government and retained this position until 1930 when the Natural Resources of the four Western Provs came under Provincial control. He worked for the Manitoba Government for a year and then decided to take early retirement.

The Family had lived in Selkirk from 1907-08 to 1914 and then moved to Whitemouth, Man and lived there till the 1930's. After retirement James and Amelia accompanied by their son James Cory and daughter Elizabeth moved back to Oxford NS..

The years in Whitemouth were busy years, they lived in the village until the fall of 1916 and then moved to a house one mile from the village that James had built on property he had bought. In September 1918, son Clifford died of diphtheria at the age of five and a half years, a heartache for all the family. Thankfully our mother and Elizabeth [Bess] recovered from this dread disease. They enjoyed their years in Oxford, bought a home and also owned a woodlot that had sugar maple trees on it, and took over a old gold mine at Sheet Harbour NS. James did some work on it, but nothing of any importance was found and in a few years was abandoned..

In the late 1930's and early 1940's they made several trips by car back west to Souix Lookout, Ont., Whitemouth Man., and Winnepeg and on to the Peace River country of Alberta and Edmonton to visit their children and brothers and sisters. They often camped along the way, much of the long trip was over gravel roads, and enjoyed it. There was a lot of pioneering blood in James vein's, he was a capable woodsman, canoeist and hunter and loved the outdoor life, and Amelia did too. All his life he was known to his friends as "Chum" Thompson, not James. In the spring of 1945 he took ill with polio and never regained his health. He died in Oxford on September 9 1946 and is buried in the Birch Grove Cemetery in Oxford NS, a few miles from where he was born and had spent his early years. He was a good husband and father and a good friend to many people and a highly respected citizen.

Our mother Amelia lived on in Oxford after her husband's death with her daughter and her son Bill lived with her for several years. She visited her daughters and their families in Souix Lookout Ont, Vancouver BC, and Branford Ont, over the years, and on July 17 1964 accompanied by her daughter Kathleen [Shillington] she flew to England when she was 81 years old, her only visit the place of her birth. She visited her niece Ada Hargrave [her sister Amy's daughter] and several nephews, her brother and sister were no longer living. She also visited her grandson John Shillington and his family who were living in England.. She found her old neighbourhood in Manchester greatly changed and deteriorated since she had left it for Canada in 1900 at the age of 17, on the CPR ship Lake Champlain. She often said she was glad she came to Canada and made her home here. She died June 17 1970 in her 88 year and is buried beside her husband in the Pine Grove Cemetery in Oxford NS.

She was a devoted caring wife and mother, a blessing to her husband and family..

Her father William H Allman died when Amelia was 9 years old and her mother Ann North Allman when she was 15, after her mother's death she lived with a friend she called "Aunt Sarah Ellan", Sarah Watson had been a close friend of her parents, and had been a witness to their marriage in 1863.

When Amelia came to Canada she intended to stay for 1 year. In 1901 she was working for Ann Dunlop and had become a friend of her sister Clara and Evelyn Thompson and their brother James the same year, and who she married in 1902. When she arrived in 1900, Canada was still a young developing country and certainly very different from the city of Manchester where she was

born. When she left England she could never have imagined what the future held for her and where she would be happy to spend the rest of her life, there were times of worry and much happiness and blessing. She was always known as "Millie", not Amelia and James had been known as "Chum" Thompson all his life, not James..

Amelia Allman [my mother]was born Jan 20 1883 at #3 Dussets Court,Ancoat Manchester. She married James Hiram Thompson [my father] May 24 1902 in Trout Lake BC.Canada.

Owen-Amy-John-Joseph and Amelia all lived to Maturity,married and had children.

The Census enumeration of 1881 spelled the Allman name incorrectly, as Allmand.
 Ann Allman's age appears to be in error at the time of marriage, she was shown to be 3 years younger than her husband William H.. Age at time of marriage Jan 1 1863 is probably correct.

Elizabeth Allman was born 1842 was the only sister of William H, she married Joseph North, a brother of Ann North
 Census records of April 1881 show their place of residence as 17 Elizabeth St, Ancoats, New Cross Manchester,.

The age of Elizabeth 36 seem to be in error
 Albert age 10 was Elizabeth's son born out of wedlock
 Mary Elizabeth age 3 was his half sister.

Owen Robert Allman

Owen Robert Allman -- Married, -May 18 1829--Mary Taylor
 Owen was a Prosperious man. He was a coach builder and owned and operated a coach line and was said to drive a coach occasionally himself thinking it was good for his health. His son William Henry was a joiner [carpenter] and they worked together. Their daughter Elizabeth had a son Albert born out of wedlock, his father was said to be a married man.. Elizabeth married Joseph North, Ann Allman's brother.
 In his will Owen R left one half of his estate to his son William, one quarter to daughter Elizabeth and one quarter to her son Albert. William resented Albert being left one quarter of the estate and his own children excluded, he quarrelled with Elizabeth and tried to break the will. It ended up in court and an agreement had to be reached by a stated date and it ended up in Chancery Court when an agreement could not be reached. The property then became the property of the Crown. How valuable the property was my mother Amelia did not know, and each time the story was told over the years the value increased. Perhaps someday out of curiosity a family member will examine the records and wonder why so much trouble was caused over an estate not that valuable. My mother told me that the father of Albert North had invested in Owen's coach line and stipulated that Elizabeth and her son Albert were to be left half of the estate in his will. My mother did not know the name of Albert's father but apparently he wanted Elizabeth and his son to be protected. The children of William were never in a financial position to reopen the case and the property remained in the possession of the Crown.

William Henry Allman

William Henry Allman--1836-1892 Married-Ann North--1836-1892 in Manchester Cathedral

on Jan 1 1863

William was a soldier in a cavalry unit in the Crimean War,1854-1856,and criticized the war bitterly for the rest of his life.When the war ended part of the trip home was through France,and one rainy night he slipped off his horse and deserted.. His desertion does not appear to have caused him trouble after his return to England,at the time of Queen Victoria Golden Jubilee in 1887 all soldiers were granted amnesty. He married Ann North a small gentle red haired woman in 1863

My mother told me that her father was a very difficult,domineering man,and caused his wife and children much unhappiness.He continued to brood over his fathers will,and quarreled constantly with his sister Elizabeth,in particular over an oil painting of their father that she kept in her possession,and would never let him have,and which he claimed should have been his..He developed a heavy drinking problem,and was a frustrated and unhappy man.In 1898 he took his own life.

Ann and her family continued to live at #3 Dussets Court ,Ancoat,Manchester. At the time of her death in1898 Owen and Amy were married and John and Joseph and Amelia were living at home.Shortly after their mothers death,both John and Joseph married and Amelia lived with Sarah Ellen Watson an old friend of the family. In 1900 she came to Canada and in 1902 she married my father James Hiram Thompson..

She always kept in touch with John and Owen and Ada Hargraves,her sister Amy's eldest daughter. Kathleen Shillington met Ada and her family when she visited England in 1964 with our mother. Kathleen was the only member of our family to know our Allman relatives.

-----July 1 1989

After reading all this over,I know it should be re-written,leaving some things out and adding others,but it would just take too much time and effort,and probably end up not one bit better,and my writing even harder to read.

At least now you will know something of some of your relatives. Who can know what their lives were really like? I hope they all had many happy ones.

Gretchen Clara Thompson
